The Feedback Hour

Today's schedule

1. Why is Eszter here?
2. Detour to break land
3. Why do I need to know this?
4. When?
5. How to?
6. Practice

Breaks

How long is a TED talk?

"The brain is always seeking patterns. Anything that breaks the pattern is novel and evokes attention."

Why do I need to know this?

The Feedback Principle of Multimedia Learning

Types of feedback:

1. Explanatory
2. Corrective

When should I give feedback to a fellow student?

How to give feedback to a fellow student?

1. Explain by connecting to prior knowledge

2. Simply explain in different words

3. Ask questions

Ports

Do you like my house? There are some similarities between this house and your computer. This house has a couple of ways to get in: the front door, a couple of windows, maybe a back door or even the chimney. The window might not be the easiest way to get inside yourself, but receiving

Pepijn Schermer   5 hours ago
did you get a reply to 'echo $SSLKEYLOGFILE ?

Filipe Tome   5 hours ago
Yeah but nothing gets written. At the end of the tutorial page posted in the reader someone has the same complaint. I'm guessing this got patched on recent browser updates, not sure.
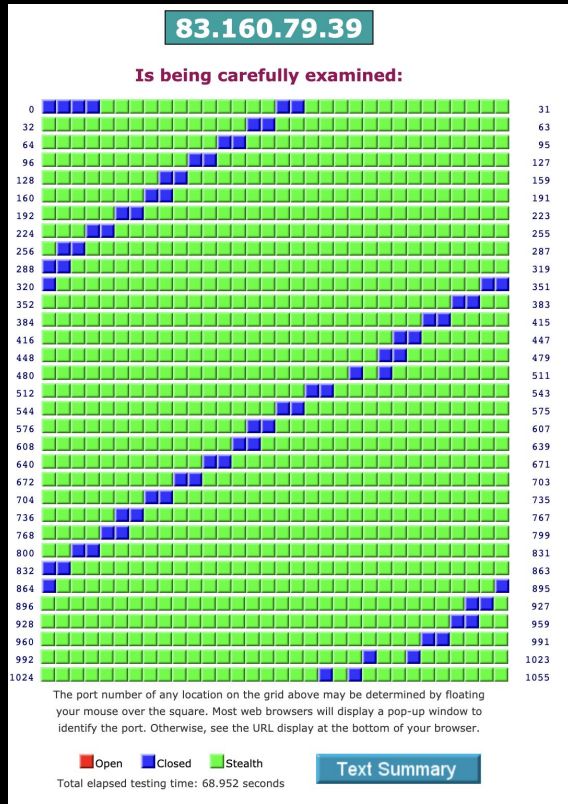

The envelope

Practice

Left diagram: Modem — Hub — three computers (with envelopes on each connection)

Right diagram: Modem — Switch — three computers (with one envelope on the top connection)
